"What's The Fare To Lubbock?" ... that was the heading of an editorial the other day in the Christian Science Monitor, the nation's most often quoted daily paper. It is printed in far away Boston, and hence all the more strange that they should editorialize on Lubbock, Texas. Yes, they say that Lubbock is "deep in the cow country of West Texas South Plains," yet they have heard of Lubbock's cleanliness. For a little town to win fame as the cleanest town in the United States, is some distinction ... who ever heard of a dirty town getting good publicity?

—T&T—

A new day has arrived. This is the age of "slacks," a kind of feminine pants, threatening to replace skirts. It looks like, literally, that the woman of tomorrow is going to wear the "breaches."

—T&T—

Men are likely to discuss many things they can't help or hinder—who wants to hinder anyway?

—T&T—

A tops citizen is the fellow who makes lots of money and is glad to pay plenty of taxes.

—T&T—

It is about time folks, especially School, City, County and State officials, and chambers of commerce should quit thinking about getting the government to help pay for things needed in a public way. The

expression is so common "maybe we can get government aid". If something is needed badly enough, do it "ourselves".

—T&T—

Politics and government bright ideas will hold sway in Texas for the next few months. We shall hear much about reducing government expenses, lower taxes, and balancing the budget. We will hear the terms "tax eaters, tax gatherers, tax spenders, waste and extravagance." Most of these terms are used out of place. What is a "tax eater" for example. No one can get a salary unless authorized; no one can buy with tax money unless specifically authorized; no one can tax-gather except duly designated. But all such terms makes good political thunder to fool the dear voter. When you hear any body ranting about cutting out governmental expenses, give him a pencil and ask him to list all he would cut out, and then add and see how much he would save YOU.

Wonder if we should class taxes as voluntary and involuntary. A tax on gasoline or on liquor, or cigars is certainly voluntarily paid. A tax on property assessed at some fictitious value is certainly involuntarily paid. A hidden tax is something you pay and are not conscious of it. It is just like having a leg cut off or something cut out while you are under the spell of an anesthetic. Which would you prefer, the job done painlessly or otherwise?

—T&T—

"A boating we will go!" There are two fellows, brothers, Stanley and Art Carmichael, business men in Hamlin who have so much faith in the new lake filling up that they have already purchased a speed boat. It is reported to be able to make many knots over the silvery waves. Listen for the "put-put-put-put." I'll be "Skeedaddle."

—T&T—

Don't forget that the world is at war. Or have you? Behold Finland and the living example of honesty and bravery. Behold their 15,000

Travis Dean Makes Announcement For Jones Co. Attorney

TRAVIS B. DEAN

Some weeks ago Hon. Travis B. Dean of Hamlin authorized a state-

dead and the thousands made helpless in behalf of their freedom, behold their ruined towns, devastated factories and farms, all in the price of freedom. And while we look back upon Finland and other small nations, we might vision others just as small in the pathway of dictators.

—T&T—

If America is held in scorn by other democratic nations when the present struggle is closed, do not be surprised. Didn't our country sell Japan materials to beat the life out of the poor Chinese? Didn't our country sell materials to Russia to ravish Finland? Didn't our country refuse to help make the world "safe for peace" just after we went to war to make the world "safe for Democracy"? Nobody wants our country to go to war, yet there is no doubt but that a vast majority of Americans desire this nation to be more liberal in letting other nations in their darkest hours have all and everything they can use to support their freedom.

—T&T—

And who but glories in the spunk of our Mr. Cromwell who spoke so openly in Canada, letting that people at war know how "we the people" in the United States feel about the matter. Really there is not much "neutrality" in this nation. It does not make any difference with this country who whips Germany and we are going to throw in Russia. There is no room for neutrality.

ment that he would soon announce for the office of County Attorney of Jones County. This week the Herald carries such announcement.

Mr. Dean needs no introduction in Hamlin. This is his home. He grew up in this community, has taught school several years in Jones county, married at Knox City, and has represented this district in the Legislature the past two terms. Still Mr. Dean is a young fellow and the profession of law is a big field before him, and he aspires to the public position of County Attorney as a further step towards public service to his county and state. Here is his formal statement:

To the Voters and Citizens of Jones County, Texas:

I hereby announce my candidacy for the office of County Attorney, subject to action of the Democratic primaries. I have deemed it a distinct honor to have served the people of this district in the Legislature, and I only trust that I have performed the duties of that office in an honorable manner. I have striven to that end.

If elected as your County Attorney, I pledge myself to uphold to the best of my ability the laws of this state and county and to conduct the affairs of the office in such a way that it will best serve the interests of the people.

I pledge myself further, to fully co-operate with law-enforcing officers, whom you choose to enforce your laws.

I will conduct a vigorous campaign prior to the primaries, and hope to discuss the affairs of the office with each and every voter within the county.

Mrs. J. S. Carman, of the Pleasant Hill community, is trying out a different idea in building her frame garden. Mrs. Carman's garden runs east and west, and the south side instead of standing up straight slants so that the sun's rays will reach all the vegetables, even those that are planted near the side of the frame. She has screen, as well as the boards, at each end of the garden, so that later when the sun is too hot, she can leave the cover on, and the air can still circulate through her garden.

It is time that all frame gardens were planted, and it is well to always leave the cover off when it is warm enough and not disagreeable.

Your pretty flower pot, lily pond, and that old can with a bit of rain water in it—all are fine places to breed a batch of mosquitos. Do away with them NOW.

D. L. Bristow requests the Herald to be changed for his daughter, Miss Pearl, from Jayton, Texas, to Post. Miss Bristow had been in the beauty work in Jayton nearly three years. She takes a similar position in Post.

Filthy water, has plenty of mosquito food in it to make 'em grow, and one female skeeter furnishes 1000 eggs or maybe 10,000. Water should be tightly covered or coated with oil. Do it NOW.

Boss (to office boy, who is half an hour late:) "You should have been here at eight o'clock."

Office Boy (eagerly): "Why, what happened?"

Easier Living BEGINS

IN THE KITCHEN

Minutes, saved consistently, grow into hours of leisure, hours for easier, better living. The modern woman is learning that the kitchen is the place in which more time can be saved... the place where leisure starts. And modern gas cooking is causing it all. For instance:

Modern gas cooking broils in half the time and ovens pre-heat faster to save time. Foods in automatically controlled oven cook unwatched and simmer-burners eliminate the danger of food boiling dry so one is not tied to the kitchen to watch cooking. Automatic lighting and accurate control of heat save many minutes, too. Let modern gas cooking supply you with easier living and better tasting foods.

This seal represents 22 super-performance standards

When you see this seal on modern gas ranges it means that the range meets 22 super-performance standards established by the American Gas Association... standards that mean better cooked foods and more leisure hours.

Modern gas service, operating through a good range, costs very little. For instance, it will cook a good dinner for three people for as little as one cent.

Golden Jubilee Tea Given Friday By Woman's Literary Club

Celebrating fifty years of outstanding service and accomplishment by the General Federation of Women's Clubs, the Hamlin Woman's Literary Club entertained Friday afternoon with a Golden Jubilee Tea in the First Baptist church.

The principal speaker for the afternoon, Mrs. Billy Bryant, of Stamford, was introduced by Mrs. Holly Toler, a member of the club's Golden Jubilee committee. Mrs. Bryant gave a most interesting review of Vardis Fisher's novel, Children of God, which has as a historical background the origin and founding of the Mormon church. The book deals with the teachings of Mormonism, and vividly portrays the early struggles of this religious sect, their final settlement in Utah and the building of the Mormon temple in Salt Lake City.

Mrs. Holly Toler, program director, presented Mrs. Glenn Caffey who opened the program with a vocal solo, An Old Refrain, with Mrs. Henry Albritton playing her accompaniment. Mrs. Albritton also played during the tea hour.

The following pioneer Hamlin club women were recognized: Mrs. Bowen Pope, Mrs. H. O. Cassie, Mrs. W. A. Albritton, Mrs. S. C. Ferguson, and Miss Allie Whiteley. A brief sketch of the life and club work of Mrs. Bowen Pope, who had recently been chosen the most outstanding member of the Hamlin Club, was read by Mrs. Holly Toler.

The reception room of the church was attractively decorated with blooming plants. A pot of Easter lilies, which was later presented to Mrs. Bryant, graced the speaker's table. The Easter theme was emphasized in the refreshment plate.

Rev. and Mrs. H. E. East were visited Sunday by three young people from Knox City, former members of his church in that city. They were Miss Wynette Farmer and Irene McRiley and Mr. Bobby Armstrong.

Dr. and Mrs. Magee and daughter Katherine, returned from Tyler Wednesday where they were called Sunday because of the illness of Dr. Magee's brother.

Mrs. Roy Gilbreath Hostess To Club

Mrs. Roy Gilbreath was hostess to members of the Optimiss Club in her home Friday afternoon.

Spring flowers and pot plants decorated the entertaining rooms where an Easter motif was featured in game appointments and was repeated in the refreshment plate.

Those playing were Mes. J. D. Burk, Jodie Creel, W. H. Dean, O. G. Harvey, L. B. Maberry, McCray, G. P. Odom, G. W. Pennington, A. T. Tipton, Gerry Richardson, Hal Rasor and the hostess.

HAMLIN LIONS TO PRESENT MAGICIAN

A new show of wonders is being sponsored by the Lions club at the High School auditorium Monday, April 1st. Birch, Master Magician and his company will be here for two performances. Monday afternoon matinee starts at 2:00, and the night show starts at 8:00.

Those who have seen the show praise it highly and assure those who attend that they will not be disappointed. It is seldom that this magician and his company show in cities as small as Hamlin and the sponsors are elated over securing this engagement.

Many of the old tricks of magic will be revealed on the stage, as well as many new ones. The famous Hindu rope trick has been solved and will be shown in Hamlin. Princess, a small pony, vanishes in thin air and a beautiful girl in a box will be sawed in two.

Several days ago Birch sent a request for the Hamlin Lions to build an escape-proof box which is on display down town and will be used in the performances. Hand-cuffed and hog-tied, Birch will be placed in the box and the lid nailed on. Getting out is his problem. Delma Shelburne made the box and says he doesn't believe any human can break out of it.

Remember, Monday afternoon and night, April 1st, at the High school auditorium.

"Build-Up" Relief Explained to Women

A simple method has saved many women a lot of suffering! It is based on the fact that headaches, nervousness, cramp-like pain are often symptoms of functional dysmenorrhea due to malnutrition.

Help for this condition so often follows the use of CARDUI, because it usually increases the appetite and the flow of gastric juice; thus aids digestion and helps build physical resistance. Usual result is less periodic distress.

Many who take CARDUI a few days before and during "the time" have found this helps ease periodic discomfort. Women have used CARDUI for more than 50 years!

Dr. and Mrs. C. C. Rister, of Norman, Oklahoma, spent the week end here with her parents, Mr. and Mrs. M. P. May and other relatives.

Mr. and Mrs. Claud Tabb and children, Wesley, Lois and Loyd, of Boyp Chapel, were guests Saturday night in the home of Mr. and Mrs. Nolan Tabb.

Sadler to Open With Radio Campaign Talk

Austin, March 26 — First big blast in the 1940 Gubernatorial sweepstakes will be fired April 4th by Jerry Sadler, rugged young member of the Texas Railroad Commission.

The colorful and dynamic Sadler will reveal his platform and proposals over a state-wide hook-up Thursday night, April 4, from 8 to 9 P. M. The broadcast will be carried by radio stations WFAA, WBAP, KPRC and WOAI.

Since his opening announcement, Sadler has been deluged with a mail and telegraphic response and declares that he is now ready to reveal his program to the voters.

"For the first time in my memory we are going to have a campaign in Texas based on issues and not personalities. There is no hocus-pocus about my program," Sadler said. "It is clear-cut, plain and fitted to the pattern of the great Lone Star State."

ACROSS THE BOARD

Built in Texas by Texas Labor

Leadership in all 7 BASIC ESSENTIALS OF A GREAT LOW-PRICED CAR

In the major things, the big things, the real things that make you want a car—all 7 of them—Ford takes commanding leadership. Here is where Ford excels.

1 GOING POWER: The kind of power that only the V-8 engine can provide—the instant response, lightning acceleration, marvelous economy and swift, smooth, faithful performance. 6,000,000 Ford V-Eights—more than all other Eights combined—say this is the power plant for you!

2 STOPPING POWER: The big, straight line stop-

ping hydraulic brakes of the Ford V-8 are far and away the biggest in the low-priced field—a safety factor you've got to have in the new car you buy.

3 POWER TO HOLD THE ROAD: No car in any price field excels Ford in roadability—in keeping "all four feet on the ground" under all driving conditions. This means safety plus comfort.

4 SMOOTHNESS: Not only in amazing power does the Ford V-8 engine excel, but in the smoothness that gives velvet quiet. Every one knows no car of fewer cylinders can match an Eight in smoothness.

5 STAMINA: In staying power there is no car that can take the rough with the smooth like Ford. There are more Fords on the highway than any other make of car. This

sturdy Ford is made to take it!

6 STYLE: Ford set the current modern trend in beauty of lines. And Ford's unequalled paint job makes its beauty permanent.

7 COMPLETE ECONOMY: The combination of low price, low cost of operation, high trade-in value and more extras at no extra cost, makes the Ford the great economy buy for 1940.
